Estimated internal popularity

Instagram network-analysis by u/jakif

Data sources: Official Instagram accounts of Players (Follows/Follow-Back) **Tools used:** Excel and Gephi

How to read this: the closer to the center a player is - the more popular

Popularity ranking based on eigenvector centrality

1. Janik Haberer 2. Marco Terrazzino 3. Nils Petersen 4. Christian Günter 5. Philipp Lienhart

Notes: -There is a bug with UTF-8 which causes the wrong displaying of the umlauts (ÜÖÄ). - Lukas Kübler is the only player with strict privacy-settings. Due to this I was unable to get his followers so he is a little outside. -Guede, Schuster & Klandt don't use Instagram.
