It's perfect, Robert! As I requested...

If you want to speak to a user and want him to see this, write his nick with @ in front less space. Nick will change into red, and the user will be signed that he was mentioned. (??) 🤔

For example: [FCNUSA](#) is written, the bell on top (right side) writes one (more) message for you.

But enough, good night for now.

Greetings, Klaus.

PS: [Remember68](#) will love your avatar... 😄
